

The Essentials of Father Involvement

TRAINING DESCRIPTION:

"The Essentials of Father Involvement" is a lively multimedia Workshop Session. Through the use of music, photos, a video, and interactive conversation we will address the value of men in the lives of children and their unique impact on children's social, emotional and academic well-being. We will also explore the challenges around the careful management of the experiences of men at school and examine a variety of strategies that will ensure maximum participation of fathers and family men in a school-based fatherhood program. Participants will leave the session with concrete ways to develop, market, and facilitate a successful series of school events that will embrace father involvement and academic achievement for children.
